2025
ANNUAL
REPORT
AND
MEETING
NOTICE

To the MEMBERS of Snapping Shoals EMC

Dear Members,

As we gather to celebrate 87 years of service, we find ourselves reflecting on what it truly means to be part of a cooperative. It's more than just flipping a switch and expecting the lights to come on. It's about trust. It's about community. And more than anything, it's about rolling up our sleeves, lacing up our boots, and getting to work, day in and day out, for the people we serve.

At Snapping Shoals EMC, that spirit drives everything we do. Whether we're restoring power after a storm, investing in new technology, or helping a local student pursue a dream, we're guided by the same steady values that built this co-op back in 1938: reliability, commitment, innovation, and concern for our community.

Shaun Mock
President/CEO
Snapping Shoals EMC

Over the past year, your cooperative has made great strides. In the fall, we introduced a modernized outage management system to help us respond faster and communicate more clearly when storms hit. We've added new tools and resources to our offerings to make your interaction with your cooperative easier than ever before. Additionally, we've added more nuclear energy from Plant Vogtle Unit 4 to our power mix and begun preparing for more new generation projects that will support our growing community in the decades ahead. And through strong financial management, we've kept our electric rates consistently below the state average, even as other costs around us rise. In fact, the average Snapping Shoals EMC member enjoys electric rates that are more than 15 percent less lower than most neighboring electric utilities.

I am proud to announce that we recently returned more than \$4.2 million in capital credits to our members, which brings our total capital credits returned to our members to more than \$100 million since our inception because in a cooperative, ownership means everyone shares in the success.

Perhaps one of the most meaningful recognitions this year was your voice. Thanks to the feedback and satisfaction of our members, Snapping Shoals EMC earned national runner-up honors in the 2024 J.D. Power Residential Consumer Survey. That kind of recognition doesn't happen without dedicated employees and engaged members working together.

Still, we know the road ahead holds new challenges. Another storm will come. Technology will evolve. The needs of our members will shift. And when that happens, we'll be ready—boots laced up, grounded in our mission, and committed to moving forward with strength and clarity.

Because that's what we do here. That's what we've always done.

Thank you for standing with us. Thank you for believing in the Cooperative Difference. And thank you for 87 years of traveling this road together. We look forward to seeing you at the 2025 Annual Meeting, where we'll celebrate all that we've accomplished—and all that we're preparing for, just over the next hill.

Shaun W. Mock

2023/2024 Report of Independent Auditors

The Board of Directors Snapping Shoals Electric Membership Corporation and Subsidiary

Opinion

We have audited the consolidated financial statements of **Snapping Shoals Electric Membership Corporation and Subsidiary**, which comprise the consolidated balance sheets as of December 31, 2024 and 2023, and the related consolidated statements of operations and comprehensive income, changes in members' equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Snapping Shoals Electric Membership Corporation and Subsidiary as of December 31, 2024 and 2023 and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Snapping Shoals Electric Membership Corporation and Subsidiary and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Snapping Shoals Electric Membership Corporation and Subsidiary's ability to continue as a going concern for one year after the date that the consolidated financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- ▶ Exercise professional judgment and maintain professional skepticism throughout the audit.
- ▶ Identify and assess the risks of material misstatements of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Snapping Shoals Electric Membership Corporation and Subsidiary's internal control. Accordingly, no such opinion is expressed.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- ▶ Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Snapping Shoals Electric Membership Corporation and Subsidiary's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.
